

REMARKS

The amendments seek to correct typographical errors in the application, that are also present in the PCT application.

As presently written, the reference to the "reaction according to (i)" is a typographical error because (i) refers to a mixture described on page 10, lines 31-33, and page 11, lines 27-29. Additionally, portions of the specification refer to "the reaction according to (ii)", which the applicants seek to correct by this Amendment. See, page 11, lines 27-29; page 12, lines 1-10, and 19-21.

As provided on page 24, lines 24-25, the use of the abbreviation TEDA is used to define triethylenediamine.

Applicants respectfully request that the typographical errors be corrected in the application. No new matter is added.

Applicant believes no fee is due with this response. However, if a fee is due, please charge our Deposit Account No. 03-2775, under Order No. 13156-00051-US1 from which the undersigned is authorized to draw.

Dated: July 10, 2006

Respectfully submitted
